

NO SMALL BONES

Jack Fellers/Scott Schiaffo

No small bones, I talk alone, my heart was beating
Fade it off tragically after the fall
Tell me that your dreams can only be imagined
Fearlessly I walked in silence down the hall

Refrain

Days gone by I never wondered
What will happen when I'm alone
A change in time, a change in season
No small bones, no small bones

If you feel that your hands do all the talking
Take them tight around your heart and don't let go
Go on once, go on listen to the ruin
Trade it off, troubles, sentimental woes

Days gone by I never wondered
So hang your halo on the wind
Hand delivered by your converts
No small bones
No small bones

Chorus

If you Fall, and you will
Just be still and hide your weakness
Never show just how low you've gone too far too fast
Knowing what I know now should convince you all together
Strip it down, shakes it off
It's no small bones

(Refrain)

(Chorus)

(Chorus)
